

Food Safety Policy

Wayamba Printpack (Pvt.) Ltd takes great care to ensure that our flexible packaging materials will not harm the consumers.

We adhere following principles as foundation of the Food Safety management system,

- ✚ Food Safety Management System which complies with the requirements of ISO 22000: 2005 International standards and both statutory and regulatory requirements mutually agreed with customers.
- ✚ Monitoring of process effectiveness through process performance measures.
- ✚ Ensure that adequate qualified human resources are available and that all employees at every level and functions are aware of their responsibilities for food safety and are appropriately trained, motivated and involved.
- ✚ Continually improve the effectiveness of the Food Safety Management Systems by reviewing food safety policies, standards and procedures with changes in products, processes and technologies.
- ✚ Communicate to all employees by training and displaying in the notice boards.
